

Christian Mauricio Rodríguez Curubo

Systems and Informatics Engineering · Software Developer

+57 301 525 3675 • cmrcurubo@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL PROFILE

Last-semester Systems and Informatics Engineering student (GPA 4.62/5.0) with solid knowledge in software development, web and mobile applications, distributed systems, databases, and quantum computing. Interested in contributing skills in full-stack programming, microservices architectures, data analytics, and system design in an entry-to-intermediate level environment, aiming to acquire practical experience in the design, implementation, and optimization of technological solutions. Recognized for fast learning capacity, excellent communication, proactive leadership, and teamwork; genuinely motivated to grow professionally in dynamic and collaborative environments where discipline, responsibility, and commitment make a difference.

EDUCATION

Universidad Pontificia Bolivariana (UPB) [Bucaramanga, Colombia](#) 2022 – Present

Systems and Informatics Engineering — Final semester **GPA: 4.62/5.0**

- Outstanding participation in the UPB Project Week with six projects in different editions.
- Virtual presentation at the FIME II Forum of the National Technological Institute of Mexico on vehicular traffic analysis using differential equations.

Universidad de Málaga (UMA) [Málaga, Spain](#)

Sep 2025 – Feb 2026

Computer Engineering / Software Engineering — Exchange semester

- NVIDIA certifications obtained during the exchange: *Fundamentals of Accelerated Computing with CUDA C++* and *Fundamentals of Deep Learning*.

Colegio Bilingüe Divino Niño [Bucaramanga, Colombia](#)

2021

High School Diploma (Bilingual)

EXPERIENCE

Software Developer [Curaduría Urbana #1 de Bucaramanga](#)

Jun 2024 – Dec 2024

Temporary Position

- Development and maintenance of CRUD functionalities on institutional information systems, improving operational efficiency and traceability of internal processes.
- Optimization of visual components and user experience with **JavaScript**, **React**, and **Bootstrap**; efficient integration and querying of relational databases.
- Continuous technical support and proposal of technological improvements in a public entity environment, demonstrating responsibility and commitment to established deadlines.

NOTABLE ACADEMIC PROJECTS

Enfok (Mobile and Web App): Image processing application under distributed architecture with parallel processing and storage using MinIO; inter-service communication via gRPC and SOAP API. Stack: Go, Java, PostgreSQL.

Tongi (Mobile App): Multi-language translation application (voice, text, camera) under a microservices architecture, integrating AI in Azure and Google ML Kit for offline support.

Bounsic (Web System): Web music streaming platform hosted on Azure, incorporating recommendation algorithms using scraping, crawling, Fourier Transform, and natural language processing with BERT.

IPS Salud Pro/Vitamed IPS (Web System): Design and implementation of an ERP/CRM-type web system with appointment management, roles, and CRUD operations.

Traffic Analysis System: Vehicular traffic simulation using SUMO and analysis of obtained data. Project presented at the FIME II Forum for the Differential Equations course.

TECHNICAL SKILLS

General Skills: Software and web/mobile app development, object-oriented programming, databases, client-server architectures, microservices and **distributed systems**, data analytics, quantum computing, and GPU processing.

Languages: JavaScript, TypeScript, Java, **Go**, Kotlin, Python, C++, Dart, SQL.

Frameworks & Cloud: React, Angular, Vue, Flutter, Tailwind CSS, Bootstrap, Azure, GCP.

Databases: **Oracle Database** (PL/SQL), **PostgreSQL**, MySQL, MongoDB.

Integration & Protocols: REST, **gRPC**, **SOAP API**, fault tolerance, horizontal scalability.

Storage & Infrastructure: **MinIO** (object storage), notions of physical infrastructure (networks, servers, on-premise and cloud environments).

Data & AI: Power BI, Qiskit, ML Kit, BERT/NLP, CUDA.

Languages: **Spanish: Native** · **English: B2 Upper-Intermediate.**

ADDITIONAL TRAINING AND CERTIFICATIONS

- **NVIDIA** — Fundamentals of Accelerated Computing with CUDA C++
- **NVIDIA** — Fundamentals of Deep Learning
- **Google Cloud** — Google Cloud Skills Boost
- **Santander Open Academy** — Introduction to Generative AI
- **Santander Open Academy** — SEO and Content Marketing
- **LVMH** — Creation & Branding · Operations & Supply Chain
